

Wile Bio Moisture

Wile Bio Moisture: a moisture meter for measuring moisture content in different types of wood chips

Wile Bio Moisture is a moisture meter for measuring moisture content in different types of wood chips.

It is an excellent tool for dry chips used in small burners as well as fresh logging residue chips that could be rather moist. The meter shows moisture content in the sample in weight percent.

With a Wile Bio Moisture meter, you can measure moisture content in chips directly in a storage heap or a load. The sample for measurement can also be collected into a plastic bucket.

In order to achieve the result that is the most representable of the average quality of the batch, it is advisable to make several measurements in different parts of the measured batch. If necessary, it is advisable to make several measurements.

The set includes:

- Meter
- W253 dish probe
- Carrying case
- Battery 6LR61, 9 V
- Operating manual.

PRODUCT INFORMATION

Battery	6LR61, 9 V
Warranty	1 year
Wile product code	7030250-BIO1
EAN code	6417160200678

MEASURED MATERIALS

Measured material	Moisture content measurement range
Chips	12-40 %
Logging residue chips	30-70 %
